Sexual Violence Team

The Sexual Violence Against Male Gender Team (SV team) falls under the Justice and Human Rights' cluster. It examines the issue of the Sexual Violence against the male gender in situations during and post armed conflicts. The Sexual Violence Team builds on international efforts to raise awareness of the use of sexual violence in conflict as a tool of war. Specifically, where there are male victims as they are currently often overlooked in legal remedy.

Capacity Building, as a strategy, forms the backbone of most of the CAJPHR's initiatives as it revolves around peace, justice and human rights. The Legal Capacity Building team (CB team) concentrates on the employment of strategies through training of justice legal actors to constructively engage and involve, in a positive manner, stakeholders in Africa in International Criminal Law. As expected, capacity building falls under the justice cluster of the team's projects.

As a result of the pandemic, Centre for African Justices, Peace and Human Rights' members worked mostly remote and our main focus was to promote justice, peace and human right through online campaigns & events.

This way, there was no investments in fixed assets in 2020, thus, Centre for African Justice, Peace and Human Rights kept the same amount as last year (2019) minus depreciation*.

Nevertheless, we successfully hosted our 3rd Annual Conference on Sexual Violence Against the Male Gender: The Case of Child Soldiers, in a physical environment in February (before the pandemic).

2020 FINANCIAL REPORT

FINANCIAL PERFORMANCE

Financial Situation

Even with the difficulties imposed by the pandemic of Covid-19, CAJPHR never stopped working hard for the achievement of our goals and for creating a fair Africa under the concepts of peace and human rights.

Even with the impact suffered by limited donations, we were able to surpass the crisis and deliver high quality of work and end the year with a positive outcome.

Before the quarantine, we were able to held the 3rd Annual Conference on Sexual Violence Against the Male Gender, presenting the case of Child Soldiers, and launch the exclusive Sexual Violence Database.

We were able to initiate and reach the final stages of the Legal Capacity Building Book Project, and start a new group project to research about the crimes and brutality of the SARS police in Nigeria.

We were able to partially raise the amount necessary for the implementation of the Kisoro Project, and successfully executed the Second Hand Book Project.

Our work was mainly virtual after the situation brought by the Covid-19, and we intensified our online campaigns. The exclusive virtual environment impose some difficulties on the creation of events and realization of projects, but it also reduced our expenses drastically. Due to our online work, we discontinued our rental agreement for the last semester of the year and we no longer had costs related to physical meetings.

Our intense online efforts were compensated and we were able to publish 7 magazines, 9 articles and 242 Social Media publications.

Our online efforts were focused in generating brought to discussion difficulties that must be faced in order to create a better Africa following the principles of Justice, Peace and Human Rights.

Our financial situation ended the year in a stable and comfortable situation. We were able to accomplish great progress with the resources we had, and we have high hopes for the future.
